About Southland Manufacturing, Inc.

SMI is a manufacturer of sewn products and bagged aggregates. For over 30 years we have been creating a product line based on our customer's needs. We produce products for multiple industries. We realize everyone works in a continually changing environment and we are here to make sure you have the right gear to protect you and your equipment.

The History of Southland

In 1969 Don and Ruth Young started Southland Upholstery. Servicing San Diego's North County, they developed a reputation for honesty and quality work. In 1977 Don was approached by a Pacific Bell worker to help solve a problem in their manholes. Water and moisture were entering their cables as they were splicing. In 1979 Don created and patented a solution; the Cable Splicing Backdrop. The Splicing Backdrop was an instant success and allowed Don and Ruth to sell Southland Upholstery and begin Southland Enterprises.

Southland Enterprises began developing and patenting products primarily in the Utilities and Telecommunications Industries. In 1987 Southland Enterprises expanded into the aggregate industry. At the time majority of utilities and construction companies were bringing aggregates to their jobsites in bulk. Southland Enterprises saw a need for aggregates in manageable bags that could be easily transported to the jobsite. In order to begin production of "bagged" aggregates custom aggregate hoppers were built and Southland Enterprises began bagging and distributing aggregates.

Over the course of the next two decades Southland Enterprises took their established competencies and expanded their product line into multiple industries. These industries include IT, Golfing, Network Marketing, Batteries, Remote Programming, and Municipalities. Due to the constantly changing nature of these industries, Research and Development has been crucial to the companies continued growth and success. In 2007 the company's founders made the decision to retire.

Southland Enterprises was purchased by Diana Young, Don and Ruth Young's daughter. Diana changed the company's name to Southland Manufacturing (SMI) in 2007. Under her direction SMI has continued its tradition of quality craftsmanship, and constant innovation. Since the purchase SMI has made improvements in Capital Equipment and expanded its Research & Development. SMI is constantly looking to improve the work environment of its customer's one product at a time.

RESEARCH and DEVELOPMENT

For over 30 years, SMI has dedicated itself to listening to its customers. No job is too small when it comes to making our customers happy. We welcome the opportunity to develop custom products that meet your individual needs. We employ an experienced team of sewers, designers, and fabricators which allows us to offer the following services.

- **Silk Screening**
- **Cutting Facility with Custom Die's and Press's**
- **Pattern design and Prototyping**
- **CAD drafting**
- **Multiple Sewing Machines for Diverse Fabrics and Pattern Sizes**
- **Snaps, Grommets, Eyelets, Buckles, Zippers and Fasteners in Stock**
- **Heat Transfers**
- **Metal/Plastic Fabrication**

We have established both national and international sourcing partnerships, allowing us to purchase a wide selection of materials at discounted rates. With over 30 years of manufacturing experience we have developed the competencies to work with virtually any material: cotton, canvas, burlap, leather, denier, nylon, and plastic.

AGGREGATES

We provide a full line of erosion control products. This includes crushed stone, sand, decomposed granite, and asphalt. Our aggregates are stocked in a Polyethylene laminated fabric bag. These bags are designed to hold up in various weather conditions. In addition to the Polyethylene bag we can customize your bag in White Polyethylene, burlap, or Polypropylene filtration fabric. All our aggregate bags are designed and manufactured in house, which gives you the ability to order custom sizes and custom materials based on your specific needs.

We provide shipping services based on order quantities.

MSDS Sheets are available upon request.

We manufacture all our aggregate bags in house. If you need a custom size or a custom fabric for your specific application please call us for a quote.

ASPHALT BAGS

Features:

- Our cold patch asphalt is bagged in a black UV treated material which is designed to allow heat transfer when placed in the sun. This allows for a more malleable product in various weather conditions.
- Does not require mixing.
- Can be easily formed and compacted.

Suggested Uses:

- Use on roads, parking lots, driveways, and paths.
- Use in wet or dry conditions.
- Provides a long lasting, durable patch or a quick temporary patch for steel road plates.
- Patched area can be immediately used.

Part Number	ACP2430
Name	Asphalt Cold Mix Bag
Material	Cold Patch Asphalt - MSDS sheet available on request
UOM	ea
Weight	40 lb
Length	25.5"
Width	15"
Height	n/a
Color	Black
Qty per Pallet	50

GRAVEL BAGS

Features:

- 1/2 - 3/4" ± Crushed Rock
- Bagged in an 8" x 30" blue polyethylene bag that weighs approximately 25 lbs.
- 25 lb bags are stacked 100 bags to a pallet.
- Our bags are ergonomically designed to make carrying easy.

Suggested Uses:

- Gravel can be used in ground cover, back fill, concrete mix, and a variety of other uses.
- Bags can be overlapped to create a seamless water barrier.
- Place gravel in bottom of power pedestals.
- Our gravel minimizes the moisture that condenses within utility pedestals. Moist air inside pedestal closure bases condenses on the cooler gravel, reducing the amount of moisture on internal components. The result is long-term savings because of less corrosion and longer equipment life.

Part Number	GB1020
Name	Gravel Bag
Material	1/2 - 3/4" ± Crushed Rock
UOM	ea
Weight	25 lbs
Length	30"
Width	8"
Height	n/a
Color	Blue
Qty per Pallet	100

SCREENED SAND BAGS

Features:

- Manufactured fill sand SE30.
- Bagged in a 17" x 30" blue Polyethylene bag that weighs approximately 60 lbs.
- Usage of manufactured sand is an environmentally friendly solution to the depletion of natural sand.

Suggested Uses:

- Can be used as a base for construction applications.
- Use in trenches for bedding and shading of pipes and conduit.
- Restrains and controls water in flooding to prevent damage.
- Can be used to direct flood waters and minimize damage to property.

Part Number	SE30
Name	Screened Sand Bag
Material	SE30 Manufactured Sand

DECOMPOSED GRANITE

Features:

- Composed of crushed weathered granite rock.
- Bagged in a 17" x 30" blue polyethylene bag.
- Stacked 30 bags per pallet.

Suggested Uses:

- Due to its high rate of compaction and rapid drainage qualities DG is used primarily as a base filler in the construction and utilities industries.
- It can also be applied in driveways, gardens, parks, paths, and pavement.
- Can be used in trenches for bedding and shading of pipes and conduit.

Part Number	DG6030
Name	Decomposed Granite Bag
Material	Decomposed Granite
UOM	ea
Weight	60 lbs
Length	17"
Width	n/a
Height	30"
Color	Blue

GEO BAGS

Features:

- 1/2 " ± Crushed Rock.
- Bagged in an 8" x 38" polypropylene non woven filtration fabric that weighs approximately 25 lbs.
- 25 lb bags stacked 50 to a pallet.
- Bag is comprised of a strong polypropylene staple fiber.
- Material allows for drainage, soil filtration and separation.
- High puncture and abrasion resistance.

Suggested Uses:

- Designed to handle environmental erosion problems found in roads, embankments, landfills, and construction sites.
- Bags can be overlapped to create a seamless water filtration barrier.

Part Number	GB3818
Name	Geo Bag
Material	Non Woven UV Resistant Geo Textile 1/2" ± Crushed Rock
UOM	ea
Weight	25 lbs
Length	38"
Diameter	8"
Height	n/a
Color	Black
Qty per Pallet	50

STRAW FIBER ROLLS

Features:

- Straw Wattle Fiber Rolls are very effective for sediment control.
- Reduce the rate of water flow simultaneously absorbing water and filtering sediment.
- Provide storm drain inlet protection.
- Reduces water velocities in areas of concentrated flow, such as waterways and swales, when installed as check structures.
- Functions as an alternative to silt fence for perimeter sediment control.

Suggested Uses:

- Installs easily, particularly in shallow soils and rocky material.
- Adaptable to slope applications and contour installations.
- Blends in with the landscape and less obtrusive.
- Does not obstruct hydraulic mulch and seed applications.
- Maybe removed or left in place following establishment of vegetation.

Part Number	WF925
Name	Straw Wattle Fiber Rolls
Material	Weed Free Straw encased with biodegradable netting
UOM	each
Weight	35 lbs
Length	25 ft
Width	9"
Height	n/a
Color	Natural Straw
Qty per Pallet	6

Southland Manufacturing Inc.

CONCRETE PREMIX

Features:

- Ideal for both structural and non structural applications over 3" thick. This ready to use product contains a blend of Portland cement, sand, gravel, and other ingredients.
- Perfect for projects requiring a quality general use concrete mix.
- High Strength 4000 PSI concrete.
- Meets ASTM C387 compressive strength requirements.

Suggested Uses:

- Ideal for sidewalks, steps, walkways, foundations, footings, and other general concrete work.
- Approximately 60 minute working time.
- Just add water.

Part Number	CPM5660-4000
Name	Concrete Premix Bag
Material	4000 PSI Concrete Mix
UOM	Ea
Weight	60 lbs
Yield	.45 cubic feet
Width	n/a
Height	n/a
Color	Grey
Qty per Pallet	56

PLASTIC SHEETING

Southland Manufacturing Inc.

Features:

- Clear Poly Sheeting can be used to protect equipment, machinery, and materials from dust, moisture and debris.
- Made from strong, clear low density polyethylene plastic.

Suggested Uses:

- Heavy duty mulch underlayment, concrete slab vapor barrier.
- Economical drop cloth for painting.
- Use inside or outside to cover, protect, separate or moisture proof.
- A vapor barrier to contain hazardous dust, asbestos, lead paint and in mold remediation work.
- Temporary walls.
- Covering fresh concrete and under mulch in landscaping.

Part Number	PS6
Name	Poly Sheeting 6 mil Clear Visqueen
Material	Polyethylene
UOM	Roll
Length	100 ft
Width	20 ft
Height	n/a
Color	Clear

BASEFILL SAND BAGS

Features:

- A stable level-filler, ideal for use where ever a solid base is required.
- With fine, powder like qualities, this product compacts to create a strong, sturdy base.
- Composed of a mix of small crushed rocks and fine aggregates.

Suggested Uses:

- This versatile material can be used for parks, highways, pipe beddings and more.
- For use in areas where greater soil compaction is needed.

Part Number	BFS6030
Name	Basefill Sand Bag
Material	Crushed Dust
UOM	ea
Weight	60 lbs
Length	18"
Width	14"
Height	n/a
Color	White
Qty per Pallet	30

SILT FENCE

Features:

- 3' x 100'
- Preassembled with hardwood stakes securely attached at 10ft intervals.
- A unique blend of UV resistance, strength and hydraulic properties that make it ideal for use in sediment control.

Suggested Uses:

- Helps control sediment-laden runoff from disturbed areas.
- Fabric helps contain overland flow and suspended soil particles from water, preventing environmental damage to areas adjacent to construction sites.
- For use on slopes, ditches, and joining fences.

Part Number	SFP3100
Name	Silt Fence
Material	UV Resistant Geo Textile with stakes
UOM	ea
Weight	32 lbs
Length	100'
Width	n/a
Height	3'
Color	Black

Southland Manufacturing Inc.

BLACK FILTER CLOTH

Features:

- 3' X 300'
- Comprised of non-woven polypropylene staple fabric.
- Designed to allow for drainage and soil filtration, separation, permanent erosion control, asphalt overlay and cushioning.
- 105 pound grab tensile strength.
- Product is cut at 3' width to easily cover storm water drains and prevent environmental debris from entering drain.

Part Number	BFC3300
Name	Black Filter Cloth
Material	Polypropylene
Weight	38 lbs
Length	3'
Width	300'
Height	n/a
Color	Black

PIPE PILLOW

Features:

- Keep you pipe off the ground while you are working with it.
- Pillow has a lightweight cup design to sit next to your open trench and cradle your pipe.
- Makes soldering and gluing easy and keeps pipe clean for a more effective and longer lasting joint.
- Strong 18 oz vinyl is puncture resistant while our bright orange color makes the product easy to find.

Part Number	PP916
Name	Pipe Pillow
Material	Vinyl
Weight	1 ½ lb
Length	16"
Width	9"
Height	6 ½"
Color	Orange

AERIAL ACCESSORIES

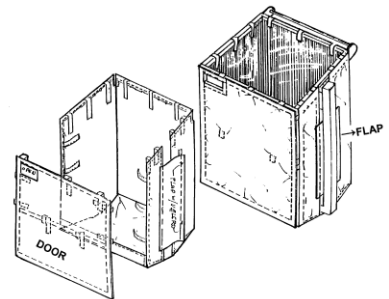

Aerial Basket Covers

- All our Basket Covers are constructed with a heavy duty UV treated Laminated Vinyl. This allows for increased life expectancy, in diverse working conditions.
- Our Universal door panel design allows you to fasten cable ties on both sides and has straps for both the top and bottom. There are flap covered openings on both sides to accommodate the door handle.
- An opening on the side allows for the boom arm to attach through the cover.
- Special order basket covers can be made. Contact us with all of your dimensions and needs and we will get started immediately.
- When ordering Versalift covers please indicate if the basket is in the bed or over the cab. If your basket has been retrofitted please contact us so we can make changes.

Part # **AT200-A**

- Fits New Altec Baskets

The door is constructed with a plastic stiffener and fastens to the metal basket with Velcro
The side of the cover has a flap that attaches under the metal basket brace and fastens with Velcro

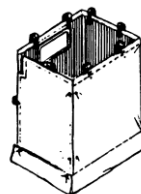

Part No# **AT200**

- Fits Older Altec Basket

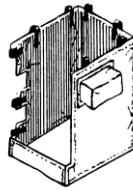

Part# **TEL28C & TEL28D**

- Fits Versalift Baskets

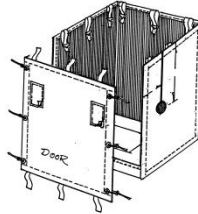

Part # A28-C

- Fits Telsta Baskets

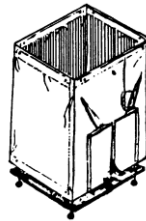

Part # A28-D

- Fits Telsta Baskets

Part # SU34

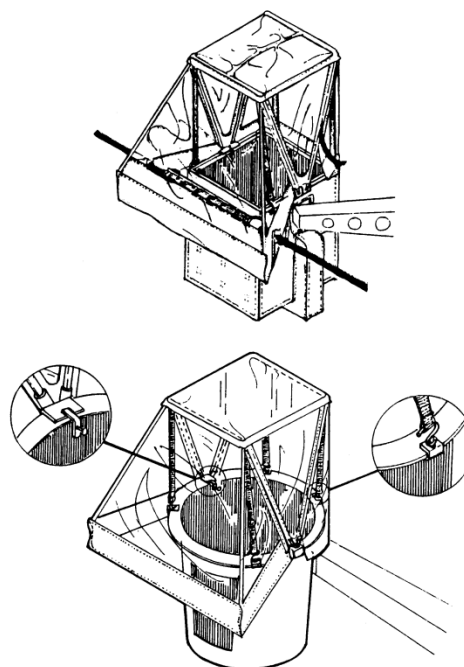

- Fits Telsta Baskets

Aerial Basket Canopy

Part # ABC2636

- Canopy tent protects Splicer when working from an aerial basket fits on both metal and fiberglass baskets. Note: "C" clamps are provided for attaching to fiberglass buckets.
- Once unit, installs on basket in minutes with cable ties.
- Canopy is made of UV treated laminated vinyl.
- Removable panels are secured with Velcro™
- Color: White

24" AERIAL TOOL APRON

- Part # **AE2424**
- Size 24"W X 24"H
- Heavy duty FR rated 18 oz. vinyl construction.
- All pockets are reinforced with a layer of webbing both on the pocket and on body to prevent pockets from tearing.
- Large leather reinforced grommets allow polymer hooks (PHB47222 not included) to attach Apron to the inside of aerial buckets.
- Foam padding to protects delicate tools from rigid aerial buckets.
- PVC rod sewn in top to suspend Apron from bucket.

30" AERIAL TOOL APRON

- Part # **AE2430**
- Size 30"W X 24"H
- Heavy duty FR rated 18 oz. Vinyl construction.
- All pockets are reinforced with a layer of webbing both on the pocket and body to prevent pockets from tearing.
- Large leather reinforced grommets allow polymer hooks (PHB47222 not included) to attach Apron to the inside of aerial buckets.
- Foam padding to protects delicate tools from rigid aerial buckets.
- PVC rod sewn in top to suspend Apron from bucket.

36" AERIAL TOOL APRON

- Part # **AE2436**
- Size 36"W X 24"H
- Heavy Duty PVC Backed Polyester construction. (Also available in FR Vinyl)
- Designed for a larger two man aerial bucket.
- 4 leather reinforced grommets for our Polymer Hooks (PHB47222).
- PVC rod sewn in top to suspend Apron from bucket.
- All pockets are reinforced with a layer of webbing both on the pocket and on body to prevent pockets from tearing.

8 POCKET PARTS BAG

- Part # **KPB2916**
- Size 16"W X 29"H
- Cotton Army Duck Marine Grade Sunforger.
- Fabric is water and mildew resistant.
- Contains 8 pockets that each have elastic tops to keep products from spilling out.
- Each pocket measures 7.5" wide and 4" tall.
- 4 Reinforced Grommets allow bag to be mounted virtually anywhere.
- Bungee cord for mounting included.

BUCKET LID COVER

- Part # **BLC2832**
- Size 32L" X 28"W
- Fits one man bucket.
- Our bucket lid covers are constructed with a heavy duty UV Treated Vinyl material.
- Elastic Bungee sewn in creating a tight seal around the lip of the Basket.
- Includes a 36" Nylon Leash and #3 Brass Swivel Hook Clasp to attach to Boom for safety.
- For custom sizes please contact us.

2 MAN BUCKET LID COVER

- Part # **BLC5328**
- Size 28"W X 53"L
- Fits two man bucket.
- Our bucket lid covers are constructed with a heavy duty UV Treated Vinyl material and reinforced with a foam insulated plywood backing to help shed water.
- Elastic Bungee sewn in creating a tight seal around the lip of the Basket.
- Includes a 36" Nylon Leash and #3 Brass.
- Swivel Hook Clasp to attach to Boom for safety.
- For custom sizes please contact us.

RUBBER MAT CONTAINER

- Part # **RMC364**
- Size 4"Dia X 36"H
- High Visibility UV Resistant Orange Vinyl.
- Designed to fit a 36" Electric Insulating Blanket.
- Zipper and Velcro® closure for easy access while in Aerial Bucket.
- Heavy strap equipped with snap hook for securing to Aerial Bucket.

POLYMER HOOKS

- Part # **PHB1831**
- Size 3" x 5"
- Can be used in baskets to hold Aerial Aprons or Oval Buckets that are equipped with large grommets.
- High impact black polymer.
- Strong and durable.
- Resists both cold and heat.
- Lip fits most Aprons and Buckets.

NON-CONDUCTIVE UMBRELLA

Southland Manufacturing Inc.

Features:

- Non conductive, water resistant construction.
- Designed to provide shade and weather protection while working around high voltage lines.
- Umbrella is constructed with an extruded fiberglass frame and wrapped in a Fire Resistant, UV Treated High Visibility Vinyl.
- All points are reinforced with leather to ensure a long life.
- Components are individually cast of a high strength, flexible polyurethane plastic.
- Each umbrella comes with an extension pole which increases the length to 80", allowing the user to stand under the umbrella.
- Hooks are sewn in 3 distinct positions to allow the user to secure the umbrella while in difficult conditions.
- A High Visibility Fluorescent Yellow Case is included for easy storage.

Testing:

- Test Apparatus used: HIPOTRONICS High Voltage Insulations Test Set, Model 100 HVT
- Output: 100kV, 50mA + 5kVA/50kV@ 100mA = 5kVA
- Applied Voltage: 20kVAC
- Current Leakage Reading: <.1 mA on each section
- Current Leakage Reading: <.1mA on each support rod

Voltage (20KVAC) was applied to one section, one support rod and to the top center of the umbrella for 60 seconds. In each case the current leakage reading was <.1 mA.

Part Number	S8442
Name	Non-Conductive Umbrella
Material	Fire Resistant, UV Treated High Visibility Vinyl
Weight	12 lbs
Height	Adjustable 48" - 80"
Diameter	84"
Color	High Visibility Yellow
Extension Pole	Included - Threaded PVC Pole adjust to 80"
Carrying Case	Included - Fluorescent Yellow

Southland Manufacturing Inc.

TRI SAFETY BAG

Southland Manufacturing Inc.

Features:

- Designed to hold three important safety items for your Tech.
 - Insulated Rubber Gloves
 - Electric Insulating Blanket
 - Voltage Tester
- By keeping an employee's safety equipment in one spot there is a lot less to forget.
- Composed of a durable UV Resistant High Visibility Orange Vinyl.
- Electric Insulating Blanket is stored in a zippered compartment for easy access and security.
- Insulated Rubber Gloves Compartment and Voltage Tester compartment are easily accessed with Velcro flaps and a security snap to assure nothing is lost when left in your Aerial Bucket.
- Grommets along the top and bottom allow you to secure product to any location.

Part Number	TSB1536
Name	Tri Safety Bag
Material	Orange Vinyl
Weight	2 lbs
Length	15"
Width	4"
Height	36"
Color	High Visibility Orange

Southland Manufacturing Inc.

BAGS & POUCHES

SMI currently sources a large and diverse range of materials. This allows us to manufacture bags and pouches that are specific to your application. We have over 30 years of experience in the textile industry which means that no custom application is too difficult for us. All our bags are sewn with the finest materials and stitched with the toughest thread. We reinforce all our bags stress points to ensure years of durability.

B CANVAS POCKET

- Part # **BCP1016-C**
- Size 2 ½"L X 8"W X 10"H
- Constructed of durable #10 Natural Canvas.
- Vinyl reinforcements is sewn into bottom to increase life span and prevent fabric puncture.
- Grommet at bottom to allow for water drainage in adverse weather conditions.
- Pocket on inside for extra storage.
- Nylon stiffener sewn in top for easy access and flexibility while in use.
- Two web straps are equipped with snap hooks and D Rings to allow user to easily attach Pocket to a vehicle, belt, or existing structure.

CANVAS JUNK BAG

- Part # **CJB24166**
- Size 6"L X 24"W X 16"H
- Constructed of durable #6 Natural Canvas.
- Sides and a Double Sewn Canvas bottom for increased strength.
- Handles are made of a 1½" Polypropylene webbing and sewn along entire side.

8 POCKET PARTS BAG

- Part # **KPB2916**
- Size 16"W X 29"H
- Cotton Army Duck Marine Grade Sunforger.
- Fabric is water and mildew resistant.
- Contains 8 pockets that each have elastic tops to keep products from spilling out.
- Each pocket measures 7½" wide and 4" tall.
- 4 Reinforced Grommets allow bag to be mounted virtually anywhere.
- Bungee cord for mounting included.

VINYL JUNK BAG

- Part # **JB1824-V**
- Size 8"L X 19"W X 15"H
- Constructed of UV Resistant Laminated Vinyl (also water resistant).
- Bag contains a Velcro closure at top.
- Grommet at the bottom to allow for drainage.

SMALL PARTS POUCH

- Part # **P45**
- Size 5"W x 4"H
- Made of quality PVC Backed Polyester.
- Zipper closes vertically to prevent material from falling out.
- Holds small parts.
- Nylon hook for quick attachment.

RANGE BAG

- Part # **RB1012**
- Size 4"L X 12"W X 10"H
- Made of quality PVC Backed Nylon with bottom mesh to drain moisture.
- Holds up to 50 golf balls.
- Great for Corporate gifts.
- Customer logo printed at no additional cost.
- Comes in several choices of colors.
- Custom sizes available.

RUBBER MAT CONTAINER

- Part # **RMC364**
- Size 4"Dia X 36"H
- High Visibility UV Resistant Orange Vinyl.
- Designed to fit a 36" Electric Insulating Blanket.
- Zipper and Velcro closure for easy access while in Aerial Bucket.
- Heavy strap equipped with snap hook for securing to Aerial Bucket.

TORCH BAG

- Part # **TB312**
- Size 5"W X 10"H
- Designed with an easy synch strap, this bag will securely hold your canister in place.
- Multiple outside pockets allow for easy storage of torch accessories.
- Polypropylene webbing attaches at top with a Brass Swivel Snap Hook.
- Certified Flame Retardant Canvas.

THROW BAG

- Part # **TB4516**
- Size 2"W X 4½"H
- 16 oz. weighted Throw Bag.
- Heavy stainless steel ring sewn in at top.
- Great for use in arbor and rescue industry.
- Fabric is a 1000 denier Cordura nylon for puncture resistance.
- Cordura is heavy duty with a polyurethane coat which gives it a repellent finish.

MAIL POUCH

- Part # **MP1813**
- Size 18"W X 13"H
- Constructed of fine quality PVC Backed Nylon.
- Nylon zipper at top secures your papers.
- Clear vinyl pocket for business cards or ID.
- Custom sizes and colors available.

GLOVE BAG

- Part # **GB2395**
- Size 5"L X 9"W X 21"H
- Made with heavy duty FR Rated Yellow Vinyl.
- Hold high voltage and low voltage gloves.
- Holds insulating sleeves.
- Velcro closures secure materials.
- Drainage hole at bottom.

TRIPLE GLOVE BAG

- Part # **GB1975**
- Size 7"L X 9"W X 19"H
- Made with heavy duty FR Rated Yellow Vinyl.
- 3 separate pockets to keep your protective gear together.
- Hold high voltage and low voltage gloves.
- Holds insulating sleeves.
- Velcro closure for quick access.
- Drainage hole at bottom.

BUCKETS

Tools Bags manufactured today have become a disposable item. They are commonly manufactured overseas in the same factories that make garments. At SMI we believe that your tool bucket is carrying your most important items..."your Tools". We manufacture all our buckets in the USA and the quality speaks for itself. Our buckets are manufactured with high quality canvas or double layered polyester. Each pocket is double rolled at the top and reinforced with webbing to prevent pockets from tearing under heavy stress. Each of our buckets contains a molded plastic bottom which is attached to the fabric at two locations with a reinforced heavy duty Nylon Thread. The tops of our buckets contain either a molded PVC ring or a welded steel ring for durability. We have many tool buckets to choose from depending on your specific need.

STOW N GO BUCKET

Southland Manufacturing Inc.

Features:

- Wrapped in a PVC Backed Polyester, this bucket is durable and offers workers a place to sit while performing those grueling tasks.
- Welded steel frame for superior support.
- Interior is lined with a .060 plastic stiffener to protect your tools and prevent any sidewall damage.
- Molded one piece plastic bottom.
- 10 exterior pockets and 6 interior pockets for maximum tool storage.
- Cushioned seat for increased comfort.
- Water resistant material discourages mold and fabric rot.

Part Number	SG14157
Name	Stow N Go Bucket
Material	PVC Backed Polyester
Weight	6 lbs
Height	16"
Width	7 ½"
Length	13"
Available Colors	Black, Camouflage, Orange

Southland Manufacturing Inc.

OVAL RIGID BUCKET

Southland Manufacturing Inc.

Features:

- Unlike some tool buckets this one will stand up to your toughest tools and protect them.
- 18 pockets for maximum tool storage.
- Doubled fabric for increased life span.
- Heavy duty plastic inner wall to prevent bucket from collapsing and allows for heavier tools.
- Welded steel ring sewn into top.
- Solid molded plastic bottom.
- Two large grommets allow you to attach bucket to your aerial bucket with Aerial Hooks.
- Heavy poly rope contains a 4 ½" snap eye hook so you can mount this bucket at your working level.

Part Number	OBR148PX
Name	Oval Rigid Bucket
Material	PVC Backed Polyester
Weight	4 lbs
Length	14"
Width	7 ½"
Height	12"
Color	Black, Natural Canvas, Camouflage, Orange

- Size 5 ½"W X 12" H
- Made of waterproof PVC backed Polyester.
- 2 clear pockets inside to protect your paperwork.
- Company logo and safety statement printed on front.
- Custom colors available.

LEATHER HOLSTERS

All our Leather products start from 100% genuine cow hides. Each product is hand cut and sewn to maintain the quality of the leather. At SMI we know that when you use real quality leather your finished product will stand the test of time. For our leather products that endure extra harsh conditions we rivet all stress points to increase life span. When you receive a leather product from SMI you will notice that the leather is stiff and tight just like a high quality pair of shoes. Because our products are genuine leather they will break in overtime and mold themselves to your tools. Leather products sold by SMI are not oiled when you receive them. Apply a Neatsfoot oil, or a comparable synthetic leather oil to your product in order to soften and condition your leather.

SPLICER'S POUCH II

- Part # **SP216T**
- Size 4 1/2"W X 8"H
- Designed to hold a Tech's Cable-Splicer Knife, Electrician's Scissors, and Can Wrench.
